## **§ 5.6 Waivers**

(A) As an alternative to some variances, the Development Review Board (DRB) may grant a waiver of setbacks, lot frontage and building heights specified in Article 2. Such waivers must be in conformance with the municipal plan [§4414(7) (a)] and state planning goals [§4302] and shall:

1. Allow for mitigation through design, screening or other remedy; or
2. Allow for structures providing for disability accessibility, fire safety and other legal requirements; or
3. Provide for energy conservation and renewable energy structures and preservation of natural and historical resources.

(B) The waiver, if authorized, will represent the minimum that will afford relief and will represent the least deviation possible from these regulations.

(C) In addition, the result will not alter the character of the neighborhood, impair reasonable or appropriate use of adjoining properties, nor cause harm to the public welfare.

(D) The process of applying for and/or appealing a waiver is same as for a variance (Section 5.5). A waiver may be granted subject to conditions. However, a waiver can only be granted on the basis of a hardship requirement proven in writing.

### **Variance Criteria:**

**"The DRB may grant a variance and render a decision in favor of the appellant only if all of the following facts are found, and findings are specified in its written decision.**

1. There are unique physical circumstances or conditions, including irregularity, narrowness, or shallowness of lot size or shape, or exceptional topographical or other physical conditions peculiar to the particular property, and that unnecessary hardship is due to these conditions and not to the circumstances or conditions generally created by the provisions of these regulations in the neighborhood or district in which the property is located;
2. Because of these physical circumstances or condition, there is no possibility that the property can be developed in strict conformity with the provisions of these regulations and that the authorization of a variance is necessary to enable the reasonable use of the property;
3. The unnecessary hardship has not been created by the appellant;
4. The variance, if authorized, will not:
  - a) Alter the essential character of the neighborhood or district in which the property is located;
  - b) Substantially or permanently impair the appropriate use or development of adjacent property;
  - c) Reduce access to renewable energy resources;
  - d) Be detrimental to the public welfare.
5. The variance, if authorized, will represent the minimum that will afford relief and will represent the least deviation possible from these regulations and from the plan." (Pages 34 & 35) of the Greensboro Zoning By-Law).

**At your DRB hearing, you will be asked to present your proposal. Please be prepared to explain why your project should be granted a waiver. You will need to have written proof of your hardship for the Development Review Board.**
